FOR IMMEDIATE RELEASE

State Route 4 Connector Ramp to Eastbound I-80 Opens Dec. 11 Interstate 80 Eastbound Willow Ave. On-Ramp to Close Dec. 13

Hercules –Saturday morning, December 11, Caltrans will open the connector ramp from State Route 4 to eastbound Interstate 80. This ramp has been closed since April 2010 due to construction activities for the I-80 Eastbound High Occupancy Vehicle (HOV) Lane project that will extend the HOV lane from SR 4 to the Carquinez Bridge.

On Monday, December 13 at 8 p.m., the Caltrans contractor will close the I-80 Eastbound Willow Avenue on-ramp. Weather permitting, this ramp will be closed for about six to eight weeks while the contractor widens the Willow Ave. undercrossing in Hercules.

Detour for I-80 EB Willow Ave. on-ramp: For northbound traffic on Willow Ave, continue on Willow Ave., turn left on San Pablo Ave, continue to John Muir Parkway and turn left, then take the on-ramp to I-80 Eastbound. For southbound traffic on Willow Ave., continue on Willow Ave. Take the SR 4 westbound on-ramp and continue to the I-80 eastbound on-ramp.

Please remember to Slow for the Cone Zone.
